PROFESSIONAL SUMMARY

Frontend Developer with 6 years of commercial experience delivering production-grade web applications across enterprise, e-commerce, media, hospitality, healthcare and IoT domains. Strong Angular specialization with hands-on experience in TypeScript, RxJS, Signals, modern Angular architecture, reusable component design, complex forms, business workflows and REST API integrations. Experienced across the full product lifecycle - planning, development, launch and production support - with additional end-to-end Shopify/e-commerce expertise and commercial Vue.js experience.

TECHNICAL SKILLS

Frontend: Angular, TypeScript, JavaScript, RxJS, Signals, HTML5, CSS3, SCSS/SASS

Modern Angular: Standalone Components, @if / @for, Reactive Programming, Component Architecture, Reusable Components

Engineering: REST APIs, WebSockets, Clean Code, OOP, Design Patterns, Git, GitHub, GitLab

UI: Angular Material, Bootstrap, Responsive Design, Cross-browser Development

Shopify / E-commerce: Shopify, Liquid, Theme Development & Customization, Custom Sections, Apps, Product & Collection Architecture, SEO

Additional: Vue.js, C#, LESS

PROFESSIONAL EXPERIENCE

Frontend Developer

Feb 2025 - Present

IDT - Intelligent Digital Technologies

- Plan, develop, launch and support complex web and mobile applications from scratch across the complete product lifecycle.
- Build scalable Angular applications using TypeScript, RxJS, Signals and modern Angular architecture.
- Design reusable components and implement complex forms, workflows, validations and backend API integrations.
- Contribute to technical planning and architectural decisions while collaborating with business analysts, backend developers, QA engineers and designers.
- Investigate production issues and continuously improve application maintainability, performance and user experience.

Frontend Web Developer

Sep 2022 - Feb 2025

Inline LLC

- Developed and maintained production-grade web applications using Angular, TypeScript and RxJS.
- Built reusable components and implemented complex business workflows, forms, validations and API integrations.
- Contributed to commercial products across media, hospitality, retail, healthcare and IoT domains.
- Collaborated with cross-functional teams and participated in technical discussions, debugging and code reviews.

Frontend Developer

Jan 2024 - Feb 2025

REXSoft

- Developed and maintained modern web applications with reusable UI components and responsive cross-device interfaces.
- Integrated frontend applications with backend APIs and translated business requirements into production-ready features.

Frontend Developer (Vue.js)

Jul 2022 - Sep 2022

Digital Threads

- Developed responsive frontend functionality and reusable components using Vue.js.
- Integrated backend services, debugged existing functionality and delivered product improvements.

Middle Angular Developer

Mar 2022 - Jul 2022

Codeex

- Developed scalable Angular and TypeScript applications, reusable components and shared functionality.
- Integrated REST APIs and applied reactive programming, OOP and clean-code principles.

Frontend Web Developer

Dec 2020 - Mar 2022

ArmBoldMind

- Developed responsive web applications, reusable UI components and REST API integrations.
- Collaborated throughout the development lifecycle and resolved frontend usability and stability issues.
